One of the greatest changes in car movements that the American Rail-way Association has recorded took place in the fortnight ended January 31. According to the association's bulletin made public to-day, the number of idle cars on the railroads of this country and Canada decreased by 57,700. The decrease was all the more significant because in the first two wasks of January the number of idle cars had decreased 45,600. We are speaking from experience.

We planned for a large increase in the number of depositors in the Commonwealth Bank for 1912, and our figures were by no means low.

And, Mr. Business Man and Mr. Salaried Man, what do you suppose has happened so far.

Our January increase was phenomenal—far beyond the mark we had set for the month—espe-cially in our New Broad Street Branch, CONFIDENCE in the Commonwealth Bank and its management is the "reason why."

If your name is not on our books we'd be glad to have you open an account.
